

Cats & Cars in cold weather

During the cold winter months cats will often seek out any warm space they can find. One particularly irresistible lure seems to be the cozy confines of a warm car engine. Help keep your own and your neighborhood cats safe this winter by following the tips below and talking with your veterinarian about cold-weather care for cats:

Keep your
cat indoors

Make sure to
check under
your car for
sleepy felines

Honk your horn,
or pound on
your hood to
wake sleeping
kitties

Give cats a minute to
walk away before starting
your engine
